Login in and make changes as needed.

We caution you to not make changes when companies start signing up unless necessary.

Once the employee groups sign up for your projects you can make changes discussed at your company meetings. I.e. if you change to a different time, or the project shifts focus because you have certain skilled volunteers make sure these changes are reflected online. UWECI uses the online information in the advanced event module to download a project list to send to the media, for staff to stop by and say thank you and to report the impact of the projects. It is important the information is accurate.
