

This is the Miller Family. The Miller family consists of John, Irene and their sons Andy and Alex. Because of recent childcare closures, Irene was forced to leave her job and stay at home with Alex, while John works full-time.

With less income and rising costs, the family has found it hard to pay for healthcare expenses, causing them to forgo important care such as monthly prescriptions. Through a collaborative community impact assessment - YOU - our community, told us your greatest needs.

At United Way of East Central Iowa (UWECI), we are focused on investing in programs that support families and individuals to have equitable access to healthcare and resources.
