

HOW SOLUTIONS ARE POSSIBLE

IT TAKES ALL OF US TO ADDRESS HOUSING.

HOMELESS SYSTEMS INITIATIVE

The Homeless Systems Initiative is intentionally aligned and operates to ensure that ongoing homelessness response efforts are integrated into broader strategies and shared community goals.

The goal of this initiative is to create a coordinated, compassionate, and data-driven system where homelessness is rare, brief, and non-recurring.

"Systems-level work allows us to see the bigger picture, identify gaps, and create collaborative strategies that truly change lives. By aligning data, programs, and best practices, our community is not just responding to homelessness, we are building lasting solutions."

J'NAE PETERMAN
Homeless Systems Manager
